

Job Title	Maintenance Supervisor
Division	Hospital
Location	Hoedspruit Private Hospital
Reporting Structure	Hospital Manager

Job Summary

As the Maintenance Supervisor at Hoedspruit Private Hospital, you will be responsible for overseeing the maintenance and repair of all hospital facilities, equipment, and systems. This role requires a qualified electrician with a clinical background to ensure that the hospital's infrastructure operates efficiently, safely, and in compliance with regulatory standards.

Requirements

- Qualified electrician with relevant certifications and licenses.
- Previous experience in hospital or clinical settings is required.
- Strong technical skills and knowledge of electrical systems, HVAC, plumbing, and other facility systems.
- Leadership and supervisory experience in a maintenance role.
- Excellent problem-solving abilities and attention to detail.
- Effective communication and interpersonal skills.
- Ability to prioritize tasks and manage a team.
- Commitment to safety and compliance with regulations.

Qualifications

- High school diploma or equivalent. Certification or diploma in electrical engineering or a related field is preferred

Experience

- Minimum of 5 years of experience as a qualified electrician, with at least 2 years in a supervisory or leadership role.
- Previous experience in hospital maintenance or clinical engineering is essential.
- Familiarity with hospital equipment, medical devices, and healthcare facility regulations.

Responsibilities

- Oversee the maintenance and repair of electrical systems, including power distribution, lighting, and emergency generators.
- Manage the maintenance team, including scheduling, task assignment, and performance management.
- Coordinate with other departments to schedule maintenance activities and minimize disruptions to hospital operations.
- Conduct regular inspections of hospital facilities and equipment to identify maintenance needs and ensure compliance with safety regulations.
- Develop and implement preventive maintenance programs to optimize equipment performance and longevity.
- Respond to emergency maintenance requests and troubleshoot electrical issues promptly.
- Maintain accurate records of maintenance activities, including work orders, equipment manuals, and inventory.
- Ensure that all maintenance activities comply with regulatory requirements, including safety standards and infection control protocols.
- Coordinate with external contractors and vendors for specialized maintenance and repair services.
- Provide technical support and training to maintenance staff as needed.
- Participate in departmental meetings, committees, and quality improvement initiatives.
- Stay informed about industry trends, best practices, and emerging technologies in facility maintenance and clinical engineering.

Company needs

As the Maintenance Supervisor, you will play a critical role in ensuring the safety, functionality, and compliance of Hoedspruit Private Hospital's facilities and equipment. The company needs a qualified electrician with a clinical background who can effectively lead a maintenance team and manage all aspects of facility maintenance. Your expertise in electrical systems and experience in hospital settings will be essential in maintaining a safe and efficient healthcare environment for patients, staff, and visitors. Your role is integral to the hospital's mission of providing high-quality healthcare services to the community.

Hoedspruit Private Hospital is an equal opportunity employer.

The Company's approved Employment Equity Plan and targets will be considered as part of the recruitment process aligned to the Company's Employment Equity strategy.

Interested candidates who meet the above criteria are requested to e-mail a detailed CV to careers@hphospital.co.za
